About Dow Toray Co., Ltd.

Dow Toray Co., Ltd. (Dow Toray), a joint venture between Dow and Toray, combines the strengths of R&D, manufacturing capability, and market knowledge built through more than 50 years of engaging with customers in Japan, to provide innovation and proven solutions in mobility, consumer and electronics, building and infrastructure, home and personal care, and chemical processing industries. Dow Toray delivers a proven portfolio of primarily silicone, and organic technologies to serve the diverse needs of customers and continue to improve the lives of consumers towards a sustainable future. Visit www.dow.com/dow-toray to learn more.

About silicone

Silicon is the second most abundant chemical element in the Earth's crust, after oxygen. The reduction of natural silica stone produces metallic silicon. Reacting silicon with methyl chloride at high temperature produces silanes, which can be broken down by hydrolysis to obtain siloxanes, which can then be processed in various ways to produce the material silicone. Silicone has many functional properties, including resistance to heat and cold, electrical insulation, flame retardance and high optical transparency. The material also be processed into different types with various physical properties, as a liquid, elastomer or solid, and is therefore utilized in a wide range of industries.

Corporate outline (as of April 2025)

Established	June 22, 2018
Shareholders	Dow subsidiary 65% Toray Industries, Inc. 35%
Capital	400.5 million JPY
Employees	Approx. 680 including group company
Accounting period	December 31
Development center	Chiba
Factories	Chiba, Fukui, Komatsu
Branch office	Nagoya

Directors (as of April 2025)

Chairman & CEO	Masanori Saito
President & COO	Yasuhiro Takagi
Director	Masahiro Sato
Director	Yasushi Nishiyama
Director	Puay Koon Chia
Director	Waranya Charoensuk
Auditor	Jun Yamazaki
Auditor	Takashi Imaizumi
Auditor	Xinyi Zhang
